ABOUT ME

Motivated and detail-oriented Computer Science Engineering graduate with hands-on experience in software development, web technologies, and problem-solving through academic projects and internships. Skilled in building responsive applications using React, Next.js, and Node.js, with a strong foundation in Python, Java, and C. Knowledgeable in databases such as Supabase and MongoDB, and familiar with machine learning tools like TensorFlow and scikit-learn. A quick learner with strong teamwork and communication abilities, eager to contribute to an innovative organization as an entry-level software engineer.

PROJECT EXPERIENCE

DECENTRALIZED CERTIFICATE VERIFICATION SYSTEM

WEB DEVELOPER — 2024 – 2025

- Built a blockchain-based certificate verification system using smart contracts to ensure tamper-proof and fraud-resistant credential records.
- Integrated IPFS for decentralized storage, enabling secure and immutable certificate data management.
- Developed a React/Next.js dashboard that allows institutions to issue and validate certificates in real time.
- Enhanced verification speed by automating processes and removing dependency on centralized authorities.

AI-POWERED RESEARCH ASSISTANT SYSTEM

WEB DEVELOPER — 2025 – PRESENT

- Developed an AI-driven system that automatically summarizes research papers, extracts key insights, and identifies relevant concepts using NLP techniques.
- Implemented semantic search and similarity matching to compare academic documents and improve research efficiency and information retrieval.
- Built a user-friendly interface enabling researchers to upload PDFs, generate citations, and access structured insights using machine learning and Python-based backend services.

FINTECH BASED WEB BANKING SYSTEM

WEB DEVELOPER — 2021–2020

- Designed and developed a secure web banking platform supporting account management, fund transfers, transaction history, and real-time balance tracking.
- Implemented role-based authentication, encrypted data storage, and secure API communication to ensure high-level financial data protection.
- Integrated payment gateway simulation and automated transaction processing using modern FinTech frameworks for seamless user banking experience.

EDUCATION

K.S INSTITUTE OF TECHNOLOGY

COMPUTER SCIENCE & ENGG

CGPA – 6.88 (till 6th sem)

2023 – 2026

V.E.T B.V.L POLYTECHNIC

DIPLOMA in COMPUTER SCIENCE &

ENGG

PERCENTAGE – 74.90%

2020 – 2023

HOLY CHRIST SCHOOL

PERCENTAGE – 56.8%

2019 – 2020

SKILLS

- Team Management
- Web Development
- Communication Skills
- Problem Solving
- Time Management

LANGUAGES

- English
- Kannada
- Hindi

CERTIFICATES

- [Introduction to GenAI Studio](#)
- [Software Engineer](#)
- [Introduction to Blockchain](#)
- Introduction to Cyber security
- [Javascript Certificate](#)
